

LINUX TRAINING

(More on GREP Command)

1) List those entries that are 5 letters long and starts with Y

```
$ awk 'BEGIN {FS="\|"} {print $2}' grepdemo.txt | awk '{print $1}' | grep -E "[yY]....$"
```

A terminal window with a dark purple background. The prompt is 'harsh@harsh:~/code\$'. The command 'awk 'BEGIN {FS="\|"} {print \$2}' grepdemo.txt | awk '{print \$1}' | grep -E "[yY]....\$"' is entered and highlighted in a white box. The output 'Vojna' is shown in red text. The prompt 'harsh@harsh:~/code\$' is shown again with a white cursor bar.

```
harsh@harsh:~/code$ awk 'BEGIN {FS="\|"} {print $2}' grepdemo.txt | awk '{print $1}' | grep -E "[yY]....$"
```

Vojna

```
harsh@harsh:~/code$
```
